

Payeer for CMS WHMCS 6.2

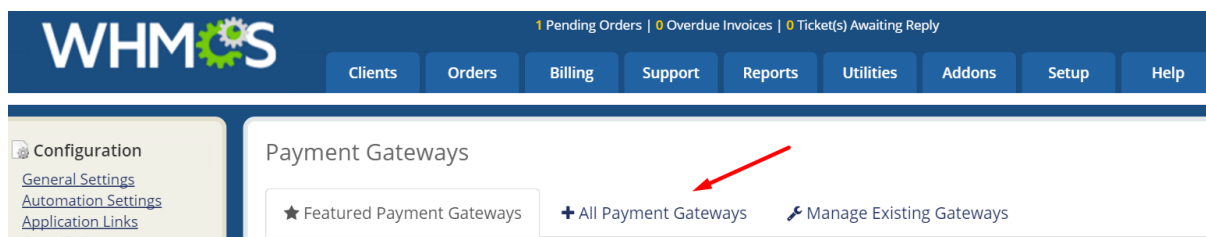

Copy the “modules” folder via FTP client in the site root with the replacement of files if required.

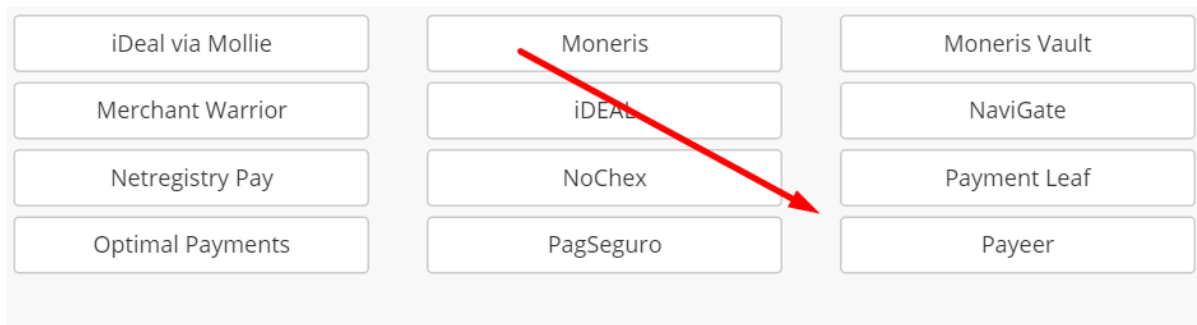

In the admin panel go to "Setup → Payments → Payment Gateways"

Tab All Payment Gateways

Among the available payment systems, locate and click on Payeer.

Specify the parameters of the payment system.

1. Payeer

 **Success!**
The changes to the payment gateways settings have been saved

Show on Order Form	<input checked="" type="checkbox"/>
Display Name	<input type="text" value="Payeer"/>
merchant's URL (by default, https://payeer.com/merchant/)	<input type="text" value="https://payeer.com/merchant/"/>
ID of the store	<input type="text" value="01234567"/>
Secret key	<input type="text" value="1234567"/>
Path to file for logging of payments (for example, /payeer_orders.log)	<input type="text" value="payeer_orders.log"/>
IP filter handler	<input type="text" value="123.456.*.*.654.*.32.*"/>
Email for payment errors	<input type="text" value="info@payeer.com"/>
Convert To For Processing	<input type="text" value="USD"/>
<input type="button" value="Save Changes"/>	

Be sure to fill in:

merchant's URL: the default path to the payment <https://payeer.com/merchant/>

ID of the store: id of your store in the system Payeer.com (can be found in the personal cabinet).

Secret key: the secret key of your store, also issued to you when registering in the system.

Journal: if you specify the path to the file logging, you will be recording information about payments via Payeer.

IP filter handler: You can specify the list of all trusted ip addresses of servers, separated by commas. You can also specify a mask instead of the ip address. If the field is empty, checking for trusted ip addresses is not implemented.

For example:

192.168.71.87, 192.165.83.17, 192.178.34.15

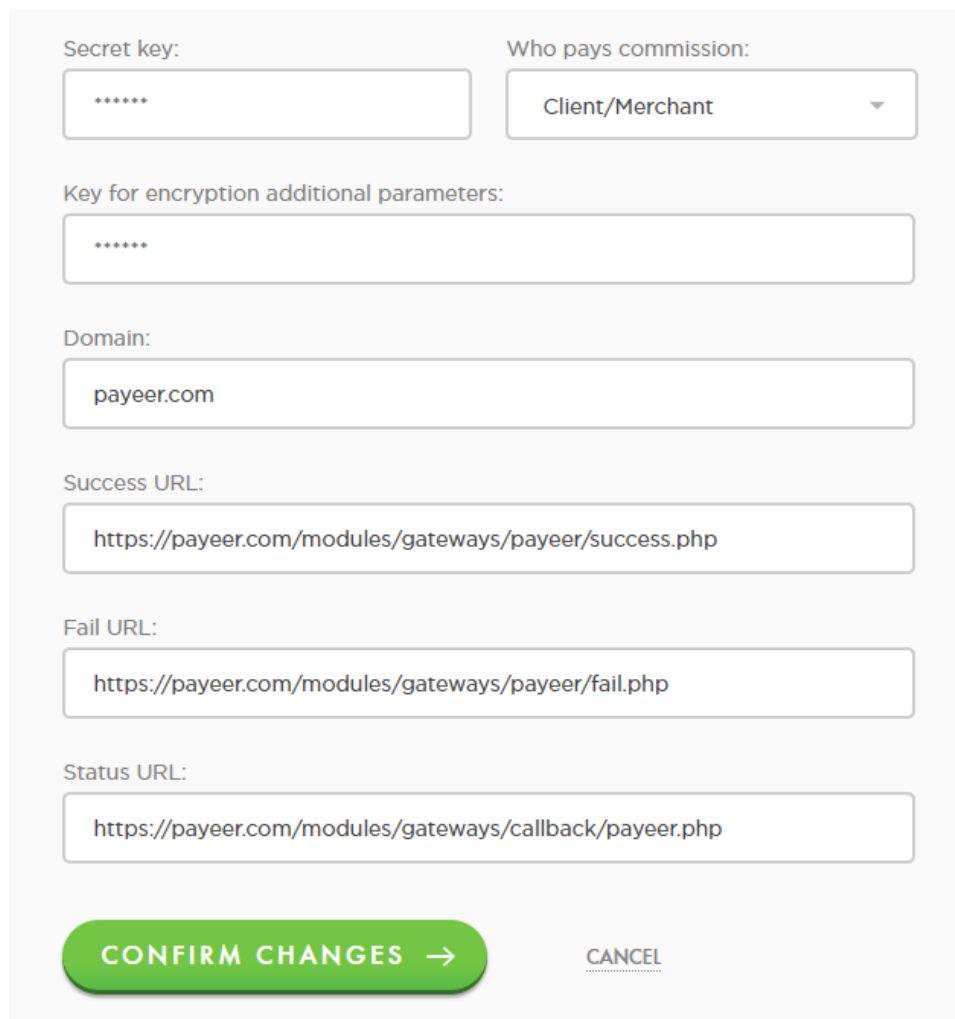

Or 192.*.71.87, 192.165.83.*, 192.*.34.15

Or *.*.*.* - доступны все ip-адреса

Email for payment errors: enter your email address to receive notices in the event of an error of payment. The letter will state the reason and basic information about the payment.

Click "Save Changes".

Then, enter the URL address in the “account Payeer → Merchant → Settings”

The screenshot shows a web form for configuring Payeer merchant settings. It includes several input fields and a dropdown menu. The 'Secret key' field contains six asterisks. The 'Who pays commission' dropdown is set to 'Client/Merchant'. The 'Key for encryption additional parameters' field also contains six asterisks. The 'Domain' field is filled with 'payeer.com'. The 'Success URL' field contains 'https://payeer.com/modules/gateways/payeer/success.php'. The 'Fail URL' field contains 'https://payeer.com/modules/gateways/payeer/fail.php'. The 'Status URL' field contains 'https://payeer.com/modules/gateways/callback/payeer.php'. At the bottom, there are two buttons: a green 'CONFIRM CHANGES →' button and a 'CANCEL' button with a dotted underline.

Secret key:	Who pays commission:
*****	Client/Merchant ▼
Key for encryption additional parameters:	

Domain:	
payeer.com	
Success URL:	
https://payeer.com/modules/gateways/payeer/success.php	
Fail URL:	
https://payeer.com/modules/gateways/payeer/fail.php	
Status URL:	
https://payeer.com/modules/gateways/callback/payeer.php	
CONFIRM CHANGES → <u>CANCEL</u>	

Success URL:

http:// *****/modules/gateways/payeer/success.php

Fail URL:

http:// *****/modules/gateways/payeer/fail.php

Status URL:

http:// *****/modules/gateways/callback/payeer.php

Where * * * * is your domain.

Confirm changes.

Payeer module for WHMCS CMS 6.2 configured.
